## *Sober Makeup Tips*

- 1) You should not be recognised as of makeup done, a key point while doing Sober Makeup.
- 2) Treatment to the lips should be given as if lips are just polished, not applied any hue to it.
- 3) Hair can have mild color change at its sides, but not too much apparent.
- 4) Mild blushing would solve the rest of the melody.
- 5) Nothing should be too contrasty, sober makeup should be balance of everything.
